NEW!

This is the story of three bubbles: of a girl who isolates herself, of a mother who doesn't know how to help her and of a boy who, for some time and a distant space, will be the key to everything

A book on what it means to be normal.

“

A brave book that with delicacy manipulates sentimentalism, as following what Poe said in *The Philosophy of Composition*. [...] A pleasingly honest way of making literature.” EL PAÍS

A solid book with well-differentiated narrative voices. NÚVOL

”

The story of a mother and daughter who struggle to adapt to their circles.

Seven-year-old Rita has serious communication problems at school. She has invented a bubble that protects her from those around and she lives in its silence. She doesn't talk to anyone. On the other hand, at home, she can't stop doing it. Anna, Rita's mother, lives trapped in a bubble of guilt. Dazed by her work, by her concern for Rita, and by the memory of a daughter who died in her belly mid-pregnancy, she cannot write. The story of David Vetter, an American boy who lived for twelve years locked in a plastic bubble because his immune system did not work, will help mother and daughter overcome their fears and vulnerabilities and get out of the invisible prisons that have been built.

Fàbregas elegantly navigates complex, current, human and universal themes, and dresses them with profound narrative simplicity.

#PowerAbuse #HumanComplexity #14Voices

A structure based on Edward Elgar's symphonic work, with 14 povs.

A portrait of the substantial changes in terms of abuse of power, mobbing at work or sexual violence that, until now, were seen with a terrifying normality.

“Not a novel that vindicates any character. It is rather a question of moral values, not judicial. Quoting Kundera ‘the novelist is not a historian or a prophet; a novel seeks and raises questions.’”

David Nel·lo, the author

Tenor Eduard Gaston, one of the most relevant figures in international opera, sees his world fall apart following the disturbing accusations of twelve women, who claim that they were victims of behavior that “were too close to what today day is considered sexual harassment”, according to the statement issued by an American news agency. Gaston, who is now seventy-five years old, has not made any statement but major opera houses in the United States have already announced that they will cancel all concerts with the tenor for the time being.

A polyphonic novel about the conscious or unconscious abuse of power, the chiaroscuro of fame, the dangerous invisibility of red lines and, ultimately, the atrocious complexity of the human being.

“A choral story that reflects the doubts, ambivalences and contradictions when an abuse or aggression is made public and myths fall (or don't).

Gurter than ever, these stories display the overwhelming force of Gurt's always surprising literary universe.

Heroes of anxiety and slaves of love, absent mothers, couples starting out or crashing into uncertainty, and marriages on the verge of collapsing parade through the pages of this book.

Gurt's characters do not know where they are going or how to get to their destination, and at the same time they are terrified but euphoric at the possibilities of prodigious worlds that arise from destruction. With addictive prose, a vivid language and a tone that oscillates between irony and intimate confession, Gurt invites us to enter her universe and builds a unique tableau of human relationships. Fourteen stories about an incertitude that is both terrifying and full of possibilities.

The last phenomenon in Catalan literature

Full synopsis in English available

Mei, a forty-two-year-old woman immersed in an apathetic marriage and who has just been fired from her job, decides to take refuge in the house where she grew up, a small farmhouse in the middle of the forest. There she will face her past, an inopportune present and a drifting future.

This is the chronicle of a rebellion, the story of unrepentant loneliness told in an intriguing 185-day countdown. What is loneliness? An objective reality or a state of mind, a blessing or a condemnation?

Gurt's shocking first novel is written in a vivid and highly visual prose that shakes the reader like a force of nature.

A translator leaves Ukraine because of the war and returns to Catalonia, where everything has changed for her.

”

MORE THAN 15 YEARS AFTER HIS LAST NOVEL, TORNER IS BACK TO FICTION WITH A LITERARY NOVEL ON LIFE, WAR, TRANSLATING AND CHANGING RELATIONSHIPS.

The Russian military invasion forces Rosalia to leave the city of Lviv —where she works as a translator— and return to Barcelona. Back home, she discovers that everything has changed for her. She no longer understands her ex-husband, nor her relation with their mutual friends, who have always been linked to the peace movement.

The news of the war and the calls to Ukrainian friends capture her attention, to the point of feeling like a foreigner in Catalonia, which she sees as a country stuck in a morass.

But two voices keep her company. That of her father —who died months ago—, with whom she begins a nocturnal dialogue that reveals aspects of herself, and that of the writer who was translating when the war broke out, Isaac Bashevis Singer, who guides her through the paths of irony, protest and compassion.

Day by day, week by week, Rosalia rebuilds her relationship with her youthful friends, with whom she will establish a bridge with the voices that come to her from Ukraine.

After eight years of exile for having committed an immoral act, Bernadette Boher returns to Prats de Molló because her mother has committed suicide. Her journey will force her to face ghosts of the past: the motives of the mother, the troubled relationship with her father, and an interrupted love affair with Daniel.

But beyond the plot, the interest of the novel lies in the creation of a very particular atmosphere. The setting is a Prats de

Molló closed to the world by the double protection of the walls and ancient legends, a place ruled by fear and obedience to the French army --the same army who took over the town in the 18th century.

But the bear party is coming, an opportunity to unleash repressed instincts. And a concern seizes the town: the beast has been seen and legend has it that when a bear comes back, the entire town will be disrupted.

CREXELLS AWARD - The Jury:

THROUGH A FRIENDLY, DIRECT AND ELECTRIFYING STYLE, THE NOVEL DESCRIBES THE FUTURE OF A POWERFUL FAMILY, A DISAPPEARANCE, AN UNCONFESSABLE SECRET AND A WRITER WHO IS READY TO DISCOVER THE WHOLE TRUTH. LOCATED IN THE DEEP MALLORCA OF BUSINESSMEN, SMUGGLERS AND THE NOUVEAU RICHE, IT PRESENTS FAMILY PLOTS, OF REVENGE, ENVY AND REPROACH.

”

A Mallorcan writer living in Barcelona is commissioned to write the biography of Dora Bonnin, a terrifying and controversial theater actress who has just died leaving behind a series of intimate diaries. Bit by bit, the protagonist will discover that these diaries hide a very dark secret that could dismantle the empire of the Verderas, a very powerful family from Mallorca, known as Falangists, who got rich by making shoes.

Melcior Comes narrates a psychological adventure about the way we understand the world and ourselves, a return to the origins to discover a painful

and terrible family mystery, a frantic chronicle of the horror years of the Transition. Between Balzac, Philip Roth and Llorenç Villalonga, the author builds an often delirious, magnetic tale, a symphonic thriller that drags us with its freedom from the very first pages, a novel full of voices and black humor.

A real literary feast. A turning point in Comes' narrative.

SUCCESS AND FAILURE BASED ON THE PROFILE OF ISMAEL SMITH, ONE OF THE MOST QUEER, GENUINE AND EXCEPTIONAL FIGURES IN ARTISTIC HERITAGE.

From the Barcelona of 1886 to the New York of 1972, the novel *Les altures* (*The Heights*) traces the life of Ismael Smith, painter, sculptor and engraver and a brilliant promise of Catalan art at the beginning of the 20th century. Smith sought success among the wealthy families of turn-of-the-century New York but was banished a short time later by the bourgeoisie who had exalted him. Dark and tormented, Ismael Smith ran into public misunderstanding but had a lucidity that briefly brought him fame.

The choral portrait of a life crossed by misunderstanding and by notions of success and failure in the world of art.

#LostGeneration

During the 1980s, Cussà developed a drug addiction that he called “the red years”. He captured this experience in Cavalls salvatges, his first work and most iconic by far.

The faithful portrayal of the marginal world of addiction and hard drugs in the rural Catalonia of the 90’s.

The chronicle of a broken generation.

A disturbing, agile and poetic tale of «the generation of suckers», in the words of its protagonist. A generation that galloped between ecstasy and hell until addiction, or AIDS, cut short their lives and found in Jordi Cussà, one of its survivors, the best possible chronicler.

Wild Horses is a brutally powerful, unflinching account of the heroin epidemic that swept across Catalonia in the 1980s. The novel, told from a variety of points of view, tells the story of a group of friends as they buy, sell, and consume heroin and other drugs in their home town. A kaleidoscope of voices, stories, song lyrics and heartbreakingly all-too-real characters. It is a true classic of modern story-telling that is both shocking and captivating at the same time.

Jordi Cussà Balaguer

Writer, poet, translator and drama director. He reached his 60ies with fifteen narrative works on his back, having signed a good number of notable translations, enjoying the Spanish translations of *Cavalls salvatges* and *Formentera Lady* and in in full creative effervescence: he was writing the script for *Cavalls salvatges*’ graphic novel (2021) and had finished a new novel, *Les muses*, published posthumously in March 2022.

Aurora is young, independent, has a job, friends, lives alone in the city, reads erotic novels, goes out when she wants and sleeps with whoever she wants. Everything would be perfect... if it weren't for the fact that in her existence almost nothing goes as it should. Her life is shaky, her boyfriend has left her, she runs away from her friends to avoid any explanation and she prefers to get away from her family. One day, by chance, Aurora meets Brais, a ten-year-old boy from a broken family, curious, impertinent, exceptionally gifted whom she is not able to get rid of. **But, above all, there is the elephant, that pink elephant in the middle of the room.**

Xirp is a world that shakes with delicious prose, an adventure that explores some of the everyday horrors of our most immediate reality and its invisible wonder.

As in the old fable, a girl is left home alone and the wolf arrives. Are a bird, a naked body and an impotent ghost enough to save her? Outside, the wolves devour the world. The world is a very small bird, it sings and our mammalian bones, of a visionary girl, agree:

“It happened when I still understood what the animals said. It was the year my father was killed, the year of the tortoise and the wren, and the year a door was opened from under me.”

“Life and death, goodness and evil, dreams and reality, narrative and poetry. Between reality and dream, between experience and imagination.”

“

Jordi Coca tells not only the life of a cat but he explains how your own life is entirely changed. And wonders if one can love a cat as if it was a person.

A house, a town, Barcelona, the theater, the couple and a cat. And the life that goes by. A story about loving and the difficulty of doing it, about truth and experience, about desire, loneliness and lack of communication.

”

“Maybe you want a cat? I have quite a few that are so beautiful and I don't know what to do with them. If I cannot find them a house, they will have to be killed.”

And so, this suddenly, a light fur cat, Cloudy, bursts into the life of a couple newly installed in a town house. Living with the cat allows the narrator to discover that this little being is intelligent, has a personality and ex-

periences mood swings. And he also realizes with astonishment that the cat is looking at him with an air of absolute dignity.

The works of Anton Chekhov and Cesare Pavese resonate in this novel by Jordi Coca in which, between reality and fiction, the force of life and falling in love prevail as the main protagonists through Cloudy, a good, noble and innocent being.

Excerpt from UK Reading Report (by Laura McGloughlin)

“ *La memòria de l'arbre* is a beautifully-written, poignant novel about the relationship between a boy and his grandfather, told in a series of vignettes, which leaves a lasting impression on the reader.

The novel is artfully constructed as a series of memories and glimpses into one small boy's world as it changes around him, often evocative and quietly devastating. The novel's true strength, however, lies in the writing. Vallès' style

is deceptively simple yet effective. Vallès realises Jan's voice brilliantly -he is bright and sensitive to the moods of the adults around him, and his narration never feels contrived. I loved this novel and it stayed with me for days after I finished reading it. Vallès manages to evoke genuine feeling in the reader -the depiction of the relationship between Jan and his grandfather brought me to tears more than once. Its universal themes of love and memory, coupled with the increasingly topical subject matter of dementia, make this a very universal novel.

All we know about living longer and better.

What do we currently know about aging and what can we do to age better?

Humanity has been trying to beat the passage of time since forever. Mythology and fiction are full of characters looking for a way not to age and become immortal. But it has not been until the 21st century when science has advanced enough for this dream to become a reality.

We finally understand why our bodies degrade with age and, thanks to this, we have begun to develop tools that act on the biological mechanisms of aging. Has science discovered the secret of eternal life? Is it possible to keep young forever?

In this book, doctors Salvador Macip and Manel Esteller review what is currently known about the aging process and tell us what we can do to stop it, from interventions that have already proved their effect, to treatments that in a future, perhaps not so distant, could make us immortal.

How science should help answering philosophical questions.

Humans have a unique ability to understand our existence. Knowing our genetic, biochemical and cellular characteristics, in the context of history, culture and evolution, can help us better understand ourselves as a species and answer, from scientific methodology, some of the questions that philosophy has traditionally raised.

In this essay, Macip proposes to analyze the human condition through what he calls “rationalist biohumanism”, a tool that should allow us to transgress biological determinism in order to achieve a life in a dignified and just society.

“IF WE PUT BOUNDARIES BETWEEN HUMANITIES AND SCIENCE WE WILL NOT BE ABLE TO MOVE FORWARD, ESPECIALLY WHEN WE ARE FACING A TECHNOLOGICAL REVOLUTION THAT CAN CHANGE EVERYTHING (EVEN HUMANITY ITSELF).”

HUMANISM NEEDS SCIENCE, AND VICE-VERSA. REASONING AND EMPIRICISM ARE NEEDED AND COMPLEMENTARY.

11 weeks that changed the History

of Art. Blocked, in his first creative crisis, barely 24 years old and leaving unfinished the portrait of Gertrude Stein, Pablo Picasso left Paris in May 1906 and from Barcelona he undertook an arduous journey, which included eight hours of walking on mules, until the small inhospitable pre-Pyrenean mountain town of Gósol (Lleida). He spent only eleven weeks but they were capital for his career as it was then that he made the leap into modernity.

In the autumn of 1906, back in Paris, Picasso made the first sketches of *Les demoiselles d'Avignon*, the foundation work of cubism in painting. At the beginning of the XXth century, for someone who lived with one foot in Paris and the other in Barcelona, this was a radical journey through time to an archaic oasis. But for Picasso meant the search for a new artistic form that would break with the past.

Moreover, Picasso found in the women of Gósol a very special source of inspiration, and Rubio goes further in his reasearch and portrays the enigmatic woman that stole Picasso's heart, Herminia, an obsession for him.

This transformative trip was so significant that during his stay he even signed all his works as Pau de Gósol.

One of the little unknown and most relevant periods in the career of Picasso.

A story of revelation, artistic blossoming and personal transformation.

1906 is a turning point and this is the chronicle.

Les demoiselles d'Avignon were born in Paris but conceived in Gósol.

THE TURNING POINT”

From Reina Sofia's press review:

“Picasso's output in 1906 has hitherto been understood as an epilogue of the Rose Period or as a prologue to *Les Demoiselles d'Avignon*. But through today's lens we can see 1906 was verifiably a “period” in its own right within Picasso's creative evolution.”

THE
AUTHOR

Eduard Niubó

Eduard Niubó Prat has travelled widely and has been to many of the countries which appear in his first book, *The Geography of Oblivion*. Places like Alaska, Canada, Iceland and Svalbard have made it possible for him to get know the Arctic well. He is also familiar with some of the great mountain ranges, such as the Andes, the Himalayas, the Alps and the Pamir mountains, and has made long journeys across every inhabited continent. His interest in literature, travel and history led him to write *The Geography of Oblivion*, a book about explorers and adventurers silenced by history.

The history of geographical discoveries is full of explorers who we barely know, but who have changed our view of the world. Many of these explorers, despite the amazing adventures they lived, are often forgotten under the account of the conquerors who have followed them, or in the shadow of their leaders.

But from the oldest maps of prehistory to lost expeditions, the discovery of the world is full of castaways, sailors, fugitives... all modest people who urged to be rescued before they ended up drowning under the tide of the official story. Avoiding established clichés, *The Geography of Oblivion* takes us on the path of the pioneers who have opened the door to knowledge of the world.

An exciting book about the limitations of human capacity, curiosity, challenges, the desire for discovery, the desire that moves people to go further. The protagonists of *The Geography of Oblivion* often cross the red line that separates life from death. At the edges of the world, there are people who play it all or nothing. What motivates people from around the world and in every era to venture beyond their known world?

"A history book written with literary ambition: how many novels could come out of it?"

VILAWEB, TINA VALLÈS

She presided the Conseil Européen des Associations de Traducteurs Littéraires (CEATL) and is the president of the association of Catalan writers. Showing body hair is not a simple harmless option. Not waxing and showing it openly is usually a political decision.

Razors, tweezers, wax and creams: these are the tools for the initiation rites that signal the passage from girl to woman. Hair is no longer a sign of joy but a battleground of cosmetic surgery. This short book dismantles preconceived ideas about the supposed benefits of body hair removing and analyzes the social penalty that comes with showing body hair as it is born. With clarity and courage, Olid exposes the contradictions and hidden costs of hair removal, and issues a rousing call to women everywhere to set themselves free from the urge to please everyone else and to focus, instead, on what pleases them.

“

BEL OLID EXPOSES WITH CLARITY AND COURAGE NOT ONLY THE CONTRADICTIONS OF WOMEN'S HAIR REMOVING, BUT ALSO EVERYTHING THAT ENTAILS OF SOCIAL SUBMISSION, OBEDIENCE TO DEMANDING MARKET REGULATIONS AND THE PERSONAL INSECURITY OF SO MANY WOMEN.

WITH DATA IN HAND, WE DISCOVER THAT THE CHOICE IS NOT FREE AND THAT SHOWING OR NOT SHOWING BODY HAIR IS NOT A SIMPLE HARMLESS OPTION.

“What we are (not) talking about when we talk about ~~sex~~ sexualities. Fresh, brave, straight, clear.”

We live sexualities conditioned by expectations, assumptions and taboos that make it difficult for us to listen to ourselves. Dare to forget what “should be” to go into “what makes you vibrate”. Explore with *Follem?* the paths that can guide us to more human sexualities, more pleasant relationships.

- ✓ A book not about sex but new sexualities.
- ✓ Unlearn to be able to learn again the new realities.
- ✓ A necessary book to read, to gift, to discuss, to think about.
- ✓ Olid explains possible sexualities without judgment, with knowledge and from a non-heterosexual point of view.
- ✓ The emphasis of the book is on the pleasures that sex provides rather than the dangers.
- ✓ Olid does not avoid a harsh chapter on rape and non-consent. But the work is above all a song to life and self-knowledge.

Feminism is more alive and more necessary than ever because discrimination against women has become more subtle and difficult to detect but keeps its paralyzing power.

Bel Olid shares the key concepts of the current feminist struggle in an intelligent, radical and sometimes surprising way.

The most defining feature of this brave and brilliant author is that their literature never flees conflict, either intimate or collective.

My fantasy is a tommy gun. When I go down the street and a stranger tells me something: tommy gun. When the on duty politician makes the on duty sexist comment: tommy gun. When the bishop explains in the newspapers how is that we don't want to be raped, if we ask for free and affordable abortion: tommy gun. When in school it is valued to infinity that the father of the creatures attend the meetings, but it is assumed the attendance of mothers: tommy gun. When I get kicked out of work because I'm pregnant: tommy gun. When they tell me not to be exalted, that there is no such thing: tommy gun. It might seem like a violent fantasy, but it is not; it's a fantasy of self-defense.

In Mexico the border is a library, in Lixouri the radio, the light in Hong Kong, a drink in Tallin, in Tiraspol a notebook, in Zagreb a night train, in Belfast were words and Berlin was the total border.

Borders are key points of cultural confluence and political conflict, of linguistic mixture and of historical transformation. They are a magnificent social phenomenon and inexhaustible reading. Following the trace of these lines drawn on the maps, we delve into the history of their towns in a privileged way. Partal has lived endless experiences and moments of great journalistic significance, and here he leaves a good example of it. Thirty-seven chapters where we'll attend the division of the Soviet Union, the ravages of the Balkan war, the birth of republics and the revival of officially extinct languages.

A fascinating journey.

An incredibly lucid and openminded approach on borders.

Partal is one of the journalists with more experience and in deep knowledge about geopolitics and border spaces.

Contrary to what people usually think, and against what states want us to think, borders are always a human invention and not even the most apparently natural ones are so.

Asterisc Agents & Awards

Asterisc Agents was born in 2016 from the infatigable curiosity of two literary agents dynamic in mind and innovative in spirit.

Since then, Asterisc has grown with permanent attention to detail without losing the essence that drives the project, and convinced that only with tenacious work, personal deferential contact and the tireless will of growth and improvement, any goal set can be reached.

Today, Asterisc Agents already has a carefully selected list of authors and foreign representations that consolidate and project the

agency to the international market. The authors who have trusted the agency have received awards and recognitions of first national level and their works do travel around the world, where they are being discovered by new readers from other latitudes. Attendance to international salons and book fairs (London, Guadalajara, Frankfurt, Bologna, Turin...) is the way for us to share our books and keep doing what we love and know how to do: to spread the passion for good stories next to its authors, the publishers who publish them and the readers who read them.
